# **SAFETY DATA SHEET** NAVI-GUARD PARACLEAR HT 22

Section 1 - Identification	
1.1 Product Identifiers	1.4 Supplier Information
Product Name: NAVI-GUARD PARACLEAR HT 22Product Code(s):	Advanced Lubrication Specialties 420 Imperial Court Bensalem, PA 19020 United States
<b>1.2 Product Usage Recommended Usage</b> : Paraffinic Process Oil <b>Restricted Usage</b> : Not Intended for any other usage	Phone: 215-214-2114Fax: 215-214-2118Email: sds@advancedlubes.com technical@advancedlubes.com sales@advancedlubes.com
1.3 Emergency Support	
Emergency Support : CHEMTREC United States +1(800) 424-9300 International +01 (703) 527-3887	

Section 2 - Hazard	s Identification
2.1 Classification of the Substand	ce or the Mixture
GHS Rating(s) : No C	lassified Hazards
Signal Word : Not A	pplicable
2.2 Label Elements	No Classified Hazards.
Precautionary: P201Storage: P505Disposal: P281	Obtain Special Instructions Before Use. Dispose of Container According to Regional Regulations Use Personal Protective Equipment as Required

### 2.3 Other Hazards

# Section 3 - Composition / Information on Ingredients

3.1 Substance Details			
Chemical Name	CAS #	%Weight	
LUBRICATING OILS (PETROLEUM) C15-30, HYDROTREATED NEUTRAL OIL-BASED	72623-86-0	100.0	

Products containing mineral oil with less than 3% DMSO extract as measured by IP-346.

Section 4 -	First Aid Measures
4.1 First Aid Measures	
Eye Contact	: Immediately flush eyes with plenty of water occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for atleast 20 minutes. Get Medical Attention.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth to mouth resuscitation. Maintain an open airway. Get medical attention if symptoms occur.
Ingestion	: Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. get medical attention if symptoms occur.
4.2 Symptoms & Effects	
To Physician	: Treat symptomatically. Contact poison specialist if product has been ingested.
Specific Treatment	: No Specific Treatment.
4.3 Medical Attention	
Protection of First Aiders	No action should be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.
Note To Doctor	: Aspiration during swallowing or vomiting may severely damage the lungs. If evacuation of stomach contents is necessary, use method least likely to cause aspiration.

## Section 5 - Fire Fighting

5.1 Extinguishing Media		
Suitable Media Unsuitable Media	: CO2, Dry chemical, or Foam. Water can be used to cool and protect product. Do not use water jet as an extinguisher, it will spread the fire.	
Specific hazards arising from this product	When heated, hazardous gases may be released including: sulfur dioxide. A solid stream of water will spread the burning material. Material creates a special hazard because it floats on water. This material creates a special hazard because it floats on water. This material creates a special hazard because it floats on water. This material is harmful to aquatic life. Any fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.	
5.3 Firefighters Advice		
Special protective equipment	: Fire Equipment Information: Fire-fighters should wear appriovirate protective equipment and sel contained breathing apparatus(SCBA) with a full face -piece operated in positive pressure mode.	

## Section 6 - Accidental Release Measures

#### 6.1 Personal precautions, protective equipment

**General Measures** : No health affects expect from the cleanup of this material if contact can be avoided. Follow personal protect equipment recommendations found in section 8 of this SDS.

#### 6.2 Environmental Precautions

Non-Emergency Personnel: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform authorities if the product has caused environmental pollution Water Polluting Material may be harmful to the environment if released in large quantities.

### 6.3 Materials & Methods to Contain and Cleanup

**Reference Section 8** : Follow all protective equipment recommendations provided in Section 8.

- Spill Control Measures
   Prevent the spread of any spill to minimize harm to human health and the environment if safe to do so. Wear complete and proper personal protective equipment following the recommendation of Section 8 at a minimum. Dike with suitable absorbent material like granulated clay. Dispose of according to Federal, State, Local, or Provincial regulations. Used fluid should be disposed of at a recycling center.
- **Containment and Cleanup**: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillage's with noncombustible, absorbent material e.g. sand earth vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via licensed waste disposal contractor. Contaminated absorbent material may pose the same threat hazard as the spilled product.

Section	7	-	Handling & Storage
---------	---	---	--------------------

7.1 Safe Handling

Personal Protective Equipment : Put on appropriate personal protective equipment (see section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, keep lid tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

### 7.2 Safe Storage

Required conditions : Odorous and toxic fumes may form from the decomposition of this product if stored at temperatures in excess of 113 deg F (45 deg C) for extended periods of time or if heat sources in excess of 250 deg F (121 deg C) are used. Store away from incompatible materials. See section 10 for incompatible materials.

### 7.3 Specific End Use

### **Designed Purpose** : This product is designed for use as a Paraffinic Process Oil

Section 8 - Exposure Control		
8.1 United States Exposure Limits CAS Chemical Name	Exposure Limits	Source
ÏGÎGH-ÌÎ-€∰Ščà¦a&æaa]*Á[ā≉ÁQoetroleum DÔFÍ⊞H€É2@å¦[d^æe^åÁ		

### 8.2 Exposure Controls

Engineering Controls	: Material should be handled in enclosed vessels and equipment, in which case general room ventilation should be sufficient. Local exhaust ventilation should be used at points where dust, mist, vapors or gases can escape into the room air. No special requirements under ordinary conditions of use and with adequate ventilation.
Enviromental Exposure Controls	: General room ventilation should be satisfactory. Local exhaust ventilation may be necessary if misting is generated.
Hygeine Measures	: Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing to remove contaminants. Discard contaminated footwear that cannot be cleaned.
Eye / Face Protection	: If contact is likely, safety glasses with side shields are recommended.
Skin / Hand Protection	: Butyl rubber. Use nitrile or neoprene gloves. Use good industrial hygiene practices. In case of skin contact, wash hands and arms with soap and water. Use caution when opening manway covers of storage and transportation containers. 3-nitroaniline crystals may be present on the interior surface of these openings. 3-nitroaniline is toxic by dermal exposure.
Respiratory Protection	: Use a properly fitted air purifying or supplied air respirator complying with an approved standard if a risk assessment indicates this a necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

#### Information On Basic Physical and Chemical Properties 9.1

	•		
Physical state	: Liquid		
Color	: B&C		
Odor	: Characteristic of Petroleum		
Odor threshold	: No Data Available		
рН	: No Data Available		
Freezing Point	: No Data Available		
Boiling Point / Range	: No Data Available		
Flash Point COC	:2F0C		
Evaporation rate:	: No Data Available		
Upper Explosive Limits (% air) : No Data Available			
Lower Explosive Limits (% air) : No Data Available			
Flammability (solid, gas)	: Not Applicable		
Vapor pressure	:<1 mm Hg		
Vapor density (air=1)	: > 1		
Relative Density	: 0.85		
Auto-ignition temperature	: Not Determined		
Decomposition temperature	: Not Determined		
Solubility in water	: Negligible, 0-1%		
Partition coefficient, n-octanol/water	: No Data Available		
Viscosity @ 40C	:ŒÁrst		

#### Stability & Reactivity Section 10

10.1 Material Analysis	
Reactivity	: No Data Available
Chemical stability	: Stable Under Normal Circumstances.
Possibility of hazardous reactions	: Hazardous polymerization will not occur.
10.2 Environmental	
Conditions to avoid	: Temperatures above the high flash point of this combustible material in combination with sparks, open flames, or other sources of ignition.
Incompatible materials	: Strong oxidizing agents
Hazardous decomposition products	: Carbon monoxide, Smoke, Carbon monoxide, sulfur oxides, aldehydes, and other petroleum decomposition products in the case of incomplete combustion. Oxides of nitrogen, phosphorus, calcium, copper, magnesium, sodium, and hydrogen sulfide may also be present

#### Section 11 **Toxicological Information**

Ingestion Toxicity Skin Contact	<ul> <li>No hazard in normal industrial use.</li> <li>This material is likely to be slightly irritating to skin based on animal data.</li> </ul>
Inhalation Toxicity Eye Contact	<ul> <li>Non-hazardous under Respiratory Sensitization category.</li> <li>The material is likely to be irritating to eyes based on animal data.</li> </ul>
11.2 Inhalation Toxicity Data	Test Value Smeetes Seumes

Sensitizer Mutagenicity	<ul> <li>No data available to indicate product or components may be a skin sensitizer.</li> <li>No data available to indicate product or any components present at greater than 0.1% is mutagenic or genotoxic.</li> </ul>
Carcinogenicity	: Not expected to cause cancer. This product meets the IP-346 criteria of <3%.
Reproductive Toxicity	: No data available if components greater than 0.1% may cause birth defects.

Section 12 - Ecologie	cal information
12.1 Aquatic Toxicity	
Acute Aquatic ecotoxicity	: Non-hazardous under Aquatic Acute Environment category.
Chronic Aquatic ecotoxicity	: Non-hazardous under Aquatic Chronic Environment category.
Persistence and degradability	: Biodegrades slowly.
Bioaccumulative potential	: Bioconcentration may occur.
Mobility in soil	: This material is expected to have essentially no mobility in soil.
Results of PBT and vPvB assessment	: Not determined.
Other adverse effects	: No data available.

#### Section 13 **Disposal Consideratio**

## 13.1 Waste treatment

Sai	Conside		

Waste treatment methods **Disposal Methods** 

: Dispose of according to Federal, State, Local, or Provincial regulations.

- : Recycle used oil.
- Waste Disposal Contaminated packaging

- : Use material is non-hazardous according to environmental regulations.
- : Recycle containers whenever possible!

#### Section 14 **Transportation Information**

# 14.1 U.S. Department of Transportation (DOT)

14.2. Shipping Description	: If shipped by land in a packagin provisions of 49 CFR, Part 130 Dangerous Goods (IMDG)		•
14.2. DOT Compliance Note	: U.S. DOT compliance requirem Transport in bulk according to A applicable International Civil Av (ICAO/IATA)	Annex II of MARPOL 73/78	8 and the IBC Code Not
14.2. DOT Compliance Requirement	: U.S. DOT compliance requirem	ents may apply. See 49 C	CFR 171.22, 23 & 24
PARACLEAR HT 22	Issued: 1/8/2018	Revised:	Page 6 / 7

Section 15	- Regulatory Information			
Regulatory Agency (TSCA) Toxic Substance Control A	: All components are either listed or not regulated US TSCA Inventory.	Chemical List Status 72623-86-0		
WHMIS Hazard Class				
Canada CPR	Canada CPR       : This product has been classified in accordance with the hazard criteria         Controlled Products Regulations (CPR) and the SDS contains all the information         required by the Regulations.
